B.S. in Biology, Human Biological Sciences option (introductory chemistry) – four year graduation plan

This is an example of a four year graduation plan for a degree in Biology, with the Human Biological Sciences option (choosing introductory chemistry).

Year 1

**Autumn**
- BIOB 160N/161N—Principles Living Systems/Lab (4)
- CHMY 121N—Intro to General Chemistry (3)
- M 162—Applied Calculus (4)
- WRIT 101—College Writing I (3)
- Elective (1)

**Spring**
- BIOB 170N/171N—Biological Diversity/Lab (5)
- CHMY 123/124—Organic & Biochemistry/Lab (5)
- STAT 216 – Intro to Statistics (4)
- Elective (1)

**Total: 15 credits**

Year 2

**Autumn**
- BIOB 260—Cell and Molecular Biology (4)
- PHSX 205N/206N—College Physics I/Lab (5)
- Intermediate Writing Course (3)
- PSYX 100S—Introduction to Psychology (4)

**Spring**
- BIOB 272—Genetics and Evolution (4)
- PHSX 207N/208N—College Physics II/Lab (5)
- General Education Requirement (3)

**Total: 16 credits**

Year 3

**Autumn**
- BIOH 365—Human A&P I for Health Prof. (4)
- BIOB 301—Developmental Biology (3)
- General Education Requirement (3)
- Upper Division Elective (3)
- Elective (1)

**Spring**
- BIOH 462—Medical Physiology (3)
- BIOM 400—Medical Microbiology (3)
- BCH 380—Biochemistry (4)
- Upper Division Elective (6)

**Total: 14 credits**

Year 4

**Autumn**
- BIOB 404—Genomics (3)
- BIOM 400—Medical Microbiology (3)
- Upper Division Elective (6)
- Elective (3)

**Spring**
- BIOH 462—Medical Physiology (3)
- BCH 380—Biochemistry (4)

**Total: 15 credits**

---

1Eligibility depends on placement exams
2See catalog or DBS Advising Office for details on alternative course choices.
