Physics 205 - Syllabus

Meeting Times:
9:10 to 10:00 Monday, Tuesday, Wednesday, and Thursday in room 131 of the Science Complex. **You must be available to take the evening exams that are given for this course. There are three: September 22, October 20, and November 17. All are Mondays and all exam times are 6:00 to 8:00. The exam location is Urey Lecture Hall.**

Instructor:
Brad Halfpap
My office is room 232 in CHCB.
Telephone 243-6237 (I highly recommend email)
Email bradford.halfpap@umontana.edu

Office Hours
10:10 to 11:00 T, W, Th
3:10 to 4:00 M, W, F

Textbook:
College Physics by Etkina, Gentile, Van Heuvelen

Web Site
I will use the Moodle Site to communicate course material.

Prerequisite
( (Undergraduate level M 122 Minimum Grade of C- or Undergraduate level MAT 119 Minimum Grade of C- or Undergraduate level MATH 112 Minimum Grade of C- or Undergraduate level M 162 Minimum Grade of C- or Undergraduate level MATH 150 Minimum Grade of C- or
Assignments

Homework  There is now considerable evidence that online, interactive homework systems result in markedly superior student learning. This course will make use of such a system - MasteringPhysics. You will find your assignments there. To utilize the MasteringPhysics system you will need to go to the website, https://www.masteringphysics.com and register for this course.

The course Name is

**College Physics I Halfpap's Section**

The ID is

**MPHALFPAP66425**

Reading

Material from the textbook should be read prior to the day it is discussed in lecture. The detailed assignments may be found on the course schedule which is on the Moodle site. This course is difficult and it moves quickly through a large amount of material. Do not expect to simply listen to the lecture presentation and understand the concepts. A part of an effective learning strategy is to come to each lecture with some idea of where your questions lie so that I can help you during the class period. To do this you need to read the material before coming to lecture.
Laboratories

The companion laboratory course, Physics 208, is a stand alone course. You may not use a lab score from Physics 111 or Physics 121 to avoid taking Physics 208.

Exams

There will be four exams given during the semester; three evening midterm exams on Monday September 22, October 20, and November 17 at 6:00pm and the final exam on Wednesday December 10 at 8:00am.

Grading

Departmental policy for this course dictates that the final determination of grades will take place after the final exam has been graded. The grade distribution will be made in such a way as to maintain consistency from year to year. As a rough guide, about 50% of the class will likely receive an A or B in the course. The weighting of the various evaluations is as follows:

- Homework 25%
- Skills Quizzes 05%
- Midterm Exams 15% each
- Final Exam (8:00am December 10) 25%

Unless there are extraordinary events requiring your absence from our exams and you make arrangements with me in advance, there will be no make-up exams given.
Standard Syllabus Material

The standard university catalog not withstanding, this course may only be taken for traditional credit or audited. The latter option is only available at the beginning of the semester. If the class goes poorly your only grading options will be to withdraw or stay with the course and receive a letter grade.

Here is a link to the fall 2014 calendar
http://events.umt.edu/?calendar_id=27&upcoming=upcoming&

Students are expected, when selecting and registering for their courses, to make informed choices and to regard those choices as semester long commitments and obligations. After registering and through the first fifteen (15) instructional days of the semester, students may use the internet (http://cyberbear.umt.edu) to drop and add courses or change sections and credits. Fees are reassessed on the fifteenth day of the term. Added courses and credits may result in additional fees. For courses dropped by the fifteenth instructional day, no fees are charged and courses are not recorded. (For deadlines and refund policy for withdrawal from all courses, see the Withdrawal sections of this catalog.) An instructor may specify that drop/add is not allowed on the internet. A drop/add form is used to make changes in these courses, if approved by the instructor. After adding a course, the credit/no credit grading option or auditor status may be elected on the internet or on a form available at the Registration Counter in Griz Central in the Lommasson Center. These options are not allowed for some courses as identified in the Class Schedule. Change of grading option to audit is not allowed after the 15th instructional day. Beginning the sixteenth (16) instructional day of the semester through the thirtieth (30) instructional day, students use paper forms to drop, add, and make changes of section, grading option, or credit. The drop/add form must be signed by the instructor of the course and the student’s advisor. The signed drop/add form must be returned to the Registration Counter (or the Registrar’s Office at the College of Technology) no later than the thirtieth instructional day. A $10.00 processing fee is charged for each drop/add form. Added courses and credits may result in additional fees. There are no refunds or reductions of fees for courses dropped and grades of W (withdrawn) are recorded. Beginning the thirty first (31) instructional day of the semester through the last day of instruction before scheduled final examinations, students must petition to drop, add, and make changes of section, grading option, or credit. The petition form must be signed by the instructor of the course and the student’s advisor and, in the case of drops only, by the dean of the student’s major. A $10.00 processing fee is charged for each petition. Added courses and credits may result in additional fees. There are no refunds or reductions of fees for courses dropped, and the instructor assigns a grade of WP (withdrawn/passing) if the student’s course work has been passing or a WF (withdrawn/failing) if the course work has been failing. These grades do not affect grade averages but they are recorded on students’ transcripts. Documented justification is required for dropping courses by petition. Some examples of documented circumstances that may merit approval are: registration errors, accident or illness, emergency, change in work schedule, no assessment of performance in class until after this deadline, or other circumstances beyond the student’s control. The opportunity to drop a course for the current term or alter grading option for such a course ends on the last day of instruction before scheduled final exams. Dropping a course taken in a previous term or altering grading option or audit status for such a course is not allowed. The only exceptions are for students who have received a grade of NF (never attended) or new students unfamiliar with the drop process who have ceased attendance before the sixteenth day of instruction and can provide to the Registrar’s Office instructor verification of non-attendance.

Class Attendance/Absence Policy

Students who are registered for a course but do not attend the first two class meetings may be required by the instructor to drop the course. This rule allows for early identification of class vacancies to permit other students to add classes. Students not allowed to remain must complete a drop form or drop the course on the internet (http://cyberbear.umt.edu) to avoid receiving a failing grade. Students who know they will be absent should contact the instructor in advance. Students are expected to attend all class meetings and complete all assignments for courses in which they are enrolled. Instructors may excuse brief and occasional absences for reasons of illness, injury, emergency, or participation in a University sponsored activity. (University sponsored activities include for example, field trips, ASUM service, music or drama performances, and intercollegiate athletics.) Instructors shall excuse absences for reasons of military service...
or mandatory public service. Instructors may establish absence policies to conform to the educational goals and requirements of their courses. Such policies will ordinarily be set out in the course syllabus. Customarily, course syllabi will describe the procedures for giving timely notice of absences, explain how work missed because of an excused absence may be made up, and stipulate any penalty to be assessed for absences.

**Academic Honesty**

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the university.

All students need to be familiar with the Student Conduct Code. The Code is available for review online at http://www.umt.edu/SA/VPSA/index.cfm/page/1321.
