PHYSICS 301 – INTRODUCTION TO THEORETICAL PHYSICS
Spring Semester 2014

LECTURES: Mon., Wed., & Fri. 11:10 a.m. – 12:00 noon, CHCB 230 (3-credit course)

INSTRUCTOR: Eijiro (‘Ebo’) Uchimoto
Office: CHCB 127 (Tel. No. 243-6223)
E-mail address: eijiro.uchimoto@umontana.edu
Office Hrs: Mon. 9 – 10 a.m., Tue. 12 noon – 1 p.m., Wed. 3 – 4 p.m.,
Thu. 1 – 2 p.m., Fri. 2 – 3 p.m., (and by appointment).

TEXTBOOK: Mathematical Methods in the Physical Sciences, third edition by Mary L. Boas

PREREQUISITES: Multivariable calculus (M 273) or equivalent
Second semester of general physics (PHSX 217-218) or equivalent

SCOPE: To acquire working knowledge of applied mathematics in preparation for a suite of
rigorous junior- and senior-level physics courses. Toward this end, the course will
cover the mathematical topics listed below in the context of their physical applications:
- matrices, vectors, linear equations, and eigenvalue problems (Chapter 3)
- partial derivatives and PDE’s emphasizing change of variables (Chapter 4)
- multiple integrals emphasizing change of variables (Chapter 5)
- differential and integral calculus of vectors (Chapter 6)
- complex numbers and functions of a complex variable (Chapters 2 & 14)
- Fourier series and transforms (Chapter 7)
- Laplace transforms (Chapter 8)

OUTCOMES: Will be proficient in applied mathematics at the upper undergraduate level in physics.
Will be able to effectively pursue advanced study in physics including classical
mechanics, electrodynamics, quantum mechanics, and thermal physics.

HOMEWORK: Reading assignments and problem sets

EXAMS: Three midterm exams (Wed. 2/26/14, Wed. 3/26/14, and Mon. 5/5/14)
Closed book but each student is permitted to bring one 3” x 5” card

One final exam (10:10 a.m. – 12:10 p.m. Mon. 5/12/14)
Closed book but each student is permitted to bring three 3” x 5” cards

GRADING: problem sets 25 % [This course can be taken for
midterm exams 45 % (15 % each) a traditional letter grade only.]
final exam 30 %

Drop/add by CyberBear through Fri. 2/14/14; drop/add by paper form through Mon. 4/7/14;
drop/add by petition through Fri. 5/9/14.

This course is accessible to and usable by otherwise qualified students with disabilities. To
request reasonable program modifications, please consult with the instructor. Disability
Services for Students will assist the instructor and student in the modification process. For
more information, visit the Disability Services website at http://www.umt.edu/disability.
## TENTATIVE COURSE OUTLINE:
