The 29th meeting of the American Society for Rickettsiology was held at the Hyatt Regency in Milwaukee, Wisconsin. The hotel offered a great venue with views of downtown Milwaukee, and the city offered great food and plenty to see within walking distance. Conference attendees enjoyed good weather as they greeted colleagues and friends. Kansas State University’s Conference Services, along with the Scientific Workshop and Organizing Committee, worked very hard to ensure a well-organized and stimulating meeting. The meeting was attended by 174 participants from 16 countries, and 25 travel grants were awarded (see page 4). The conference began on June 16th with an opening reception that included remarks by ASR president Dr. J. Stephen Dumler. Dr. Arthur Allen delivered an insightful historical keynote address discussing the history of typhus, focusing on the critical contributions of Drs. Rudolf Weigl and Ludwik Fleck.

The remainder of the meeting was an excellent forum for discussion of the most recent developments in Rickettsial research. Concurrent scientific sessions were held to accommodate the number and variety of presentations. Poster sessions provided networking opportunities and showcased many up and coming Rickettsiologists. New officers were elected for 2018-2019, including Kelly Brayton as the new ASR President. Additionally, two long time leaders in our society, David Walker and David Wood, were appointed honorary members. The ASR thanks you both for your continual support. Congratulations on this well-deserved honor!!

FINANCE REPORT

2017 Balance Forward:
$46,000

2018 Income:
$105,742.85

IN MEMORIAM

Dr. Thomas Ray Jerrells

We are sad to write that a long time supporter of the ASR and rickettsial research, Dr. Thomas Ray Jerrells, died May 22, 2018. We are deeply appreciative of Dr. Jerrells’ many contributions to the ASR and will miss his presence. Dr. Jerrells’ obituary can be found at:
