The purpose of this project was to gain a better understanding of the various career paths taken by sociology graduates of the University of Montana. The project sample consisted of alumni who graduated between 1982 and 2012. A series of postcards were mailed to all graduates asking them to fill out a short online survey regarding their employment and education history since leaving the University of Montana. An individual’s most current job is listed last. Respondents denoted with an asterisk (*) have agreed to be contacted by students interested in their particular career and/or educational path. This contact information is available through the Sociology Department’s main office.

We wish to thank those alumni who responded to our survey because without their help, we would not have been able to create this booklet. We would also like to extend a special thanks to Mr. Tom Cotter, Class of ’53, for supporting and funding this project.
Social Services

Aronoff, Joshua (BA, 2003)*
